YOUGOODS-OTAKU.COM

Design Example

Font

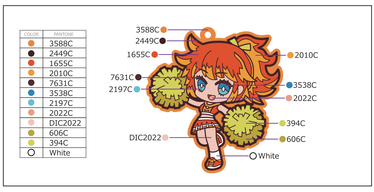
Front Design

Draw your design straight into the template
Draw the design to 100% scale
Outline all designs including text
The main lines should be at least 0.3 mm thickness
When pasting an image please make sure to embed the link

Back

Back Side Design (Only when silk-screen printing is desired on the back side)

Draw your design straight into the template
Draw the design to 100% scale
Flip the product design (mirror flip)
Please use a single color
Outline all designs including text
Use at least 0.25 mm thickness for lines (if less than that the design will rub off)
When pasting an image be sure to embed the link



Color

Standard: Use up to 12 colors
Premium: Use up to 15 colors
Specify colors by PANTONE number or DIC number
Please draw a guide line for colors as shown in the image
Gradation cannot be used
Use solid colors

Keyring Hole

The keyring hole can be placed anywhere along the outside of the product
Please indicate where the hole should be placed using the sample given

Template for Customer Use
